

DANIYAR NIYETKALIYEV

Nur-Sultan, Kabanbay batyr ave. 53/10
(+7)7782505391 ♦ daniyar.niyetkaliyev@nu.edu.kz

EDUCATION

Foundation Year Program by University of Warwick at NU	<i>August 2016 - June 2017</i>
Nazarbayev University, Nur-Sultan	<i>August 2017 - Present</i>
Bachelor in Computer Science	
Peer Tutor CSCI 151 - Programming for Engineers and Scientists	

PROJECTS

Railway Systems	<i>Vue.js, JavaScript, HTML, CSS</i>
This website implements a system to manage operations at a train station. The system will need to keep track of arrivals and departures, tickets and availability, delays, maintenance, weather conditions, and so on. I was working on Front-End side on Vue.js, with AJAX and AXIOS technologies to connect front-end with back-end functions.	

Mobile Recruited for Alpha Bank	<i>Android Studio, Java, Firebase</i>
The project aims at designing and building android application, for automatizing of recruiting process. On the project I was working on Android Studio, developing UI and UX of the application. To illustrate design I have used Figma, and implemented it in Android studio. As a database I have created FireBase project, and I was also gained experience working with NoSQL database systems.	

Database Website	<i>HTML, CSS, JS, Ajax</i>
project aims at building website for data set collection. User can upload files and see data sets in open access. Several users can upload tasks for other users. Again I was a front-end developer and worked on connecting front end with Back end of the website with AJAX technology.	

WORKING EXPERIENCE

MethodPro	June - August 2019
<i>Front End and Mobile developer</i>	

- Machine Learning using Python, basic concepts of Deep Learning
- Android development with Android Studio
- Front end development with Vue.js

Designer at CAC	from October 2019
<i>Adobe Photoshop and After Effects</i>	

- Montage of video on Adobe After Effects
- Designing on Adobe Photoshop

SKILLS

Languages	Java, Python, C++,
Software	Android Studio, Arduino, Git, Bash, Unix Linux
Courses	Algorithms, ML, Database Systems, Artificial Intelligence, Software Engineering

INTERESTS AND ACTIVITIES

Choir, Volunteering, Designing, VideoMaking
